Description:

Cocoa Butter Lemon" is a popular skincare combination, often found in creams, lotions, and body butters (like those from brands like **Queen Elisabeth, Ever Sheen, or Palmers**). It mixes the deep, ultra-hydrating power of cocoa butter with the brightening properties of lemon.

particularly popular for people looking to even out their skin tone while staying moisturized.

Cocoa Butter: A rich, natural fat extracted from cocoa beans. It is a "heavyweight" moisturizer that melts at body temperature to sink deep into the skin.

- **Lemon (Citrus) Extracts:** Contains Vitamin C and citric acid. These act as natural astringents and mild exfoliants to brighten dull spots.
