Listing details

Common

Title: ITEL,city100

Price: \$ 105.00

Condition: New

Description:

Itel "Value" Series

Itel is famous for providing "the look of an iPhone" at a fraction of the cost. They focus on stylish designs and large batteries.

- **Design:** Often features the "**Dynamic Bar**" (itel's version of the iPhone's Dynamic Island) which shows notifications, battery status, and face unlock animations at the top of the screen.
- **Storage & RAM:** Most current itel phones in this range offer **128GB storage** and use "Extended RAM" (e.g., 4GB physical + 4GB virtual) to keep things snappy.
- **Battery:** Almost always a **5,000mAh** battery, which is the industry standard for lasting a full day and a half.
