Qiimaha: \$ 4.00
Xaalad: Cusub

Sharaxaad

Sharaxaad:

Most commercial baby oils (like Johnson's) are 98% Mineral Oil and 2% Fragrance.

- **Mineral Oil:** A highly refined, purified ingredient that is "occlusive," meaning it creates a physical barrier on top of the skin to lock in existing moisture.
- **Hypoallergenic:** It is designed to be extremely gentle, colorless, and free of parabens or phthalates to avoid irritating a baby's sensitive skin.

Hair Treatment Used sparingly on the ends of hair to tame frizz and add a high-gloss shine.
